

MITRON BANK NEW CREDIT CARD LINE STRATEGY

By Suraj Mane

PROBLEM STATEMENT

Mitron Bank is a legacy financial institution headquartered in Hyderabad. They want to introduce a new line of credit cards, aiming to broaden its product offerings and reach in the financial market

AtliQ Data Services came to know about this through an internal link and approached Mitron Bank with a proposal to implement this project. However, strategy director of Mitron Bank, Mr.Bashnir Rover is skeptical and asked them to do a pilot project with the sample data before handing them the full project. **They provided a sample dataset of 4000 customers across five cities on their online spend and other details.**

Provided data is divided into two different datasets

1. dim_customers
2. Fact_Spends

DATA LAYOUT

Column Description for dim_customers:

- **customer_id**: This column represents the Unique ID assigned to each customer.
- **gender**: This column represents the gender of the customer. (Male, Female)
- **age_group**: This column categorizes the customer into different age groups. (21-24, 25-34, 35-45, 45+)
- **marital_status**: This column indicates the marital status of the customer (single, married).
- **city**: This column represents the city of residence for the customer. (Mumbai, Delhi-NCR, Chennai, Hyderabad, Bengaluru)
- **occupation**: This column denotes the occupation or profession of the customer. (Salaried IT Employees, Salaried Other Employees, Business Owners, Freelancers, Government Employees)
- **average_income**: This column indicates the monthly average income of the customer, in INR currency.

	 customer_id	 age_group	 City	 Occupation	 Gender	 Marital Status	 Avg Income
1	ATQCUS3022	45+	Delhi NCR	Salaried IT Employees	Female	Married	77344
2	ATQCUS0809	25-34	Hyderabad	Salaried Other Employees	Male	Married	39922
3	ATQCUS0663	25-34	Chennai	Salaried Other Employees	Male	Married	37702
4	ATQCUS1951	45+	Chennai	Government Employees	Male	Married	63585
5	ATQCUS1942	45+	Chennai	Freelancers	Male	Married	43204
6	ATQCUS1651	45+	Mumbai	Salaried IT Employees	Male	Married	76952

of 6 months

NEW FIELDS AND KPI INTRODUCED

New Calculated Field

Average Income Category in dim_Customers table

```
1 Avg Income Category = SWITCH(  
2   TRUE(),  
3   dim_customers[Avg Income] <= PERCENTILE.INC(dim_customers[Avg Income], 0.25), "Low Income",  
4   dim_customers[Avg Income] <= PERCENTILE.INC(dim_customers[Avg Income], 0.75), "Moderate Income",  
5   dim_customers[Avg Income] > PERCENTILE.INC(dim_customers[Avg Income], 0.75), "High Income",  
6   "Other"  
7 )
```

Major KPI Used

1. Average Income Utilization %
2. Average Income Utilization % by Credit Card
3. Credit Card Adoption Rate

DASHBOARD LAYOUT

Mitron Bank's New Credit Card Line Strategy

Customer Demographics Dashboard

**Objective:**

This dashboard aims to streamline the exploration of customer demographics, delivering insights into crucial metrics including total customer count, average income utilization rate, average income utilization rate by credit cards, and credit card usage adaptation rate.

Designed For / User Roles:

Customized for the needs of Product Managers, Team Leads, members of the Strategy Team, and Analysts, this dashboard serves as a robust tool empowering users to analyze and comprehend customer demographics with efficiency.

Key Insights

**Objective:**

This comprehensive dashboard showcases pivotal findings and emerging trends identified throughout the project, offering valuable insights for product managers, the marketing team, and stakeholders alike.

Accessible by:

Stakeholders, product research team, product managers, and members of the marketing team.

Spend Analysis Dashboard

**Purpose:**

This interactive dashboard is crafted to empower technically proficient users and analysts who prefer delving into data intricacies and exploring trends. It provides a comprehensive platform for in-depth spend analysis.

Built For / Roles:

Tailored for Product Managers and Analysts, this dashboard is designed to cater to individuals with a strong technical background, offering them the freedom to navigate and uncover nuanced insights within the spend data.

Recommendation

**Recommendations**

This page presents concepts for Mitron Bank's upcoming credit card line, derived from a thorough analysis of key insights. We have endeavored to integrate and develop offerings that align with customer personas and their key behaviors, in accordance with the new product strategy.

KEY INSIGHTS

- Highest Income utilization done by Income group
 - Low income group (45%)
 - Moderate income group (43%)
 - High income group (41%)

Avg Income Category	Average Income	Avg income utilisation %
Low Income		
Freelancers	\$205.6K	46%
Salaried Other Employees	\$204.2K	41%
Government Employees	\$231.6K	32%
Moderate Income		
Salaried IT Employees	\$345.9K	51%
Freelancers	\$239.5K	43%
Salaried Other Employees	\$249.0K	42%
Business Owners	\$328.7K	32%
Government Employees	\$312.6K	29%
High Income		
Salaried IT Employees	\$409.5K	51%
Business Owners	\$437.9K	33%

- Salaried IT Employees , Salaried Other employees and Freelancers have the highest income utilization Rates
- Government Employees and Business Owners have the lowest income utilization Rates

KEY INSIGHTS

- Mumbai leads with a 51% income utilization rate, closely followed by Delhi NCR at 48%, and Bengaluru at 43%. These cities demonstrate the highest levels of customer spending, showcasing their strong economic engagement and income utilization efficiency.

Credit Card Adoption Rate % by City

- Chennai, Delhi NCR, and Hyderabad exhibit a noteworthy credit card adoption rate, with 41% of their income utilization attributed to credit card transactions. This indicates a substantial reliance on credit cards for financial transactions in these cities.

Avg income utilisation % by City

- The credit card adoption rate for income utilization is notably higher among married individuals, standing at 51.1%, as opposed to the rate observed among single customers, which is recorded at 48.9%. This insight underscores a discernible disparity in credit card usage patterns based on marital status.

Credit Card Adoption Rate % by Marital ...

KEY INSIGHTS

- Credit card adoption rates demonstrate a noteworthy elevation across diverse occupational segments, with government employees exhibiting the highest adoption, followed by salaried employees and business owners. This underscores a strong proclivity within these professional cohorts for utilizing credit cards in their expenditure practices.

Avg Income Category	Average Income	Credit Card Adoption Rate %
Moderate Income		
Government Employees	\$312.6K	44%
Salaried IT Employees	\$345.9K	43%
Salaried Other Employees	\$249.0K	42%

Salaried IT Employees	\$409.5K	40%
Low Income		
Salaried Other Employees	\$204.2K	42%
Government Employees	\$231.6K	36%
Freelancers	\$205.6K	35%

- Female customers are more incline toward the use of Credit Cards in comparison to males

KEY INSIGHTS

- Analyzing the chart reveals that the highest credit card adoption rate is observed in the age group of 25-34 at 47%, closely followed by the 35-45 age group at 39%. Conversely, the lowest adoption rates are found among individuals aged 21-24 at 34%, and the 45+ age group at 36%. This indicates distinct patterns in credit card usage across various age brackets.

- credit card is among the top payment among all age group but UPI is quickly gaining the market share due to ease of use and also it is most popular among the customers of younger age group

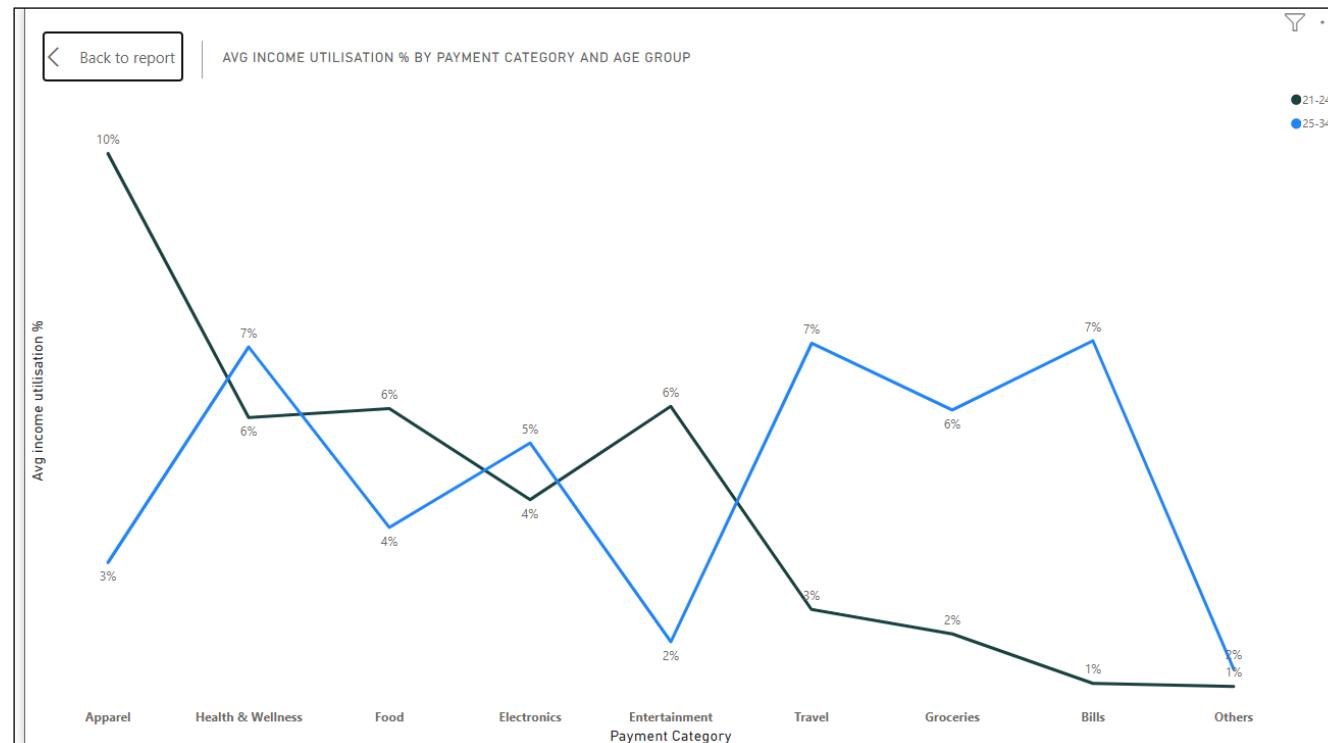

- In the upcoming slides, we will delve into an analysis of how customers across various age groups and genders allocate their income across different payment categories.

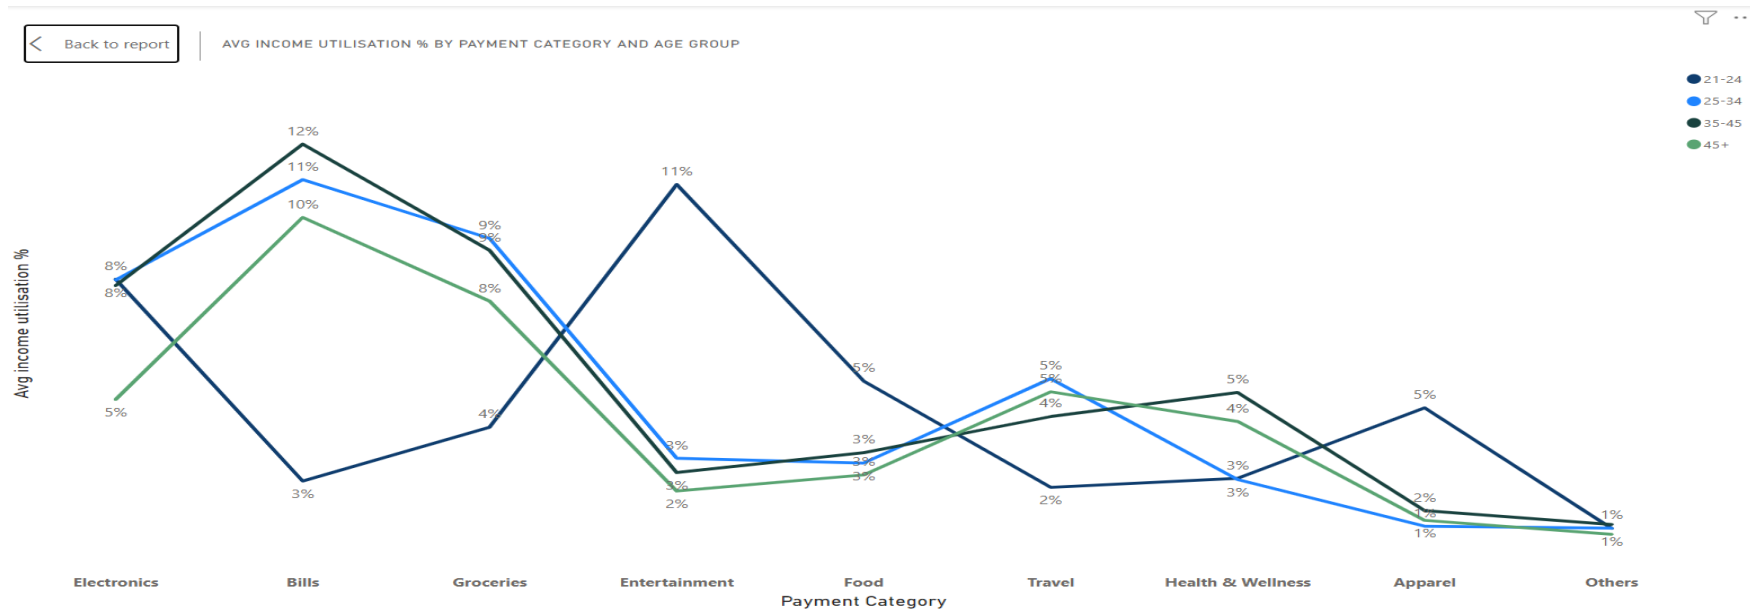

SPENDING HABITS OF SINGLE FEMALES

- Examining the overall perspective, single females distribute a significant portion of their income across various spending categories, with a primary emphasis on Apparel (8%), Health and Wellness (6%), Food (5%), Entertainment (4%), and Travel (4%).
- Upon closer examination of a younger female demographic,
 - particularly those within the 21-24 age range, a noticeable shift in spending preferences becomes evident. This group demonstrates an increased allocation towards Apparel (10%), Entertainment (6%), Food (6%), and Health and Wellness (6%).
 - As these females progress into the 25-34 age group, there is a distinct evolution in spending habits. The focus shifts towards Bills (7%), Travel (7%), Health and Wellness (7%), Groceries (6%), Electronics (5%), and Food (4%), accompanied by a slight reduction in the allocation to Apparel (3%).
- This nuanced analysis highlights the dynamic nature of spending patterns among single females, emphasizing the impact of age on their financial priorities and consumption behaviors.

SPENDING HABITS OF SINGLE MALES

- Examining the broader context, single males allocate a considerable share of their income to diverse spending categories, emphasizing Electronics (8%), Bills (6%), Groceries (6%), Entertainment (6%), Food (4%), and Travel (4%).
- Upon closer inspection of spending behaviors within specific age brackets:
 - Younger males (21-24) display a spend allocating more towards Entertainment (11%), Electronics (8%), Food (5%), and Apparel (5%).
 - As the male demographic progresses into the 25-34 age group, spending preferences transition towards Bills (11%), Groceries (9%), Electronics (8%), and Travel (5%).
 - In the 35-45 age group, a noticeable shift occurs with increased emphasis on Bills (12%), Groceries (9%), Electronics (8%), and Health and Wellness (5%).
 - Males in the 45+ age group witness an evolving spending pattern, emphasizing Bills (10%), Groceries (8%), Travel (5%), Electronics (5%), and Health and Wellness (4%).
- This detailed analysis unveils the dynamic nature of spending habits among single males across various life stages, providing valuable insights for strategic planning and targeted engagement.

SPENDING HABITS OF MARRIED FEMALES

- In the realm of expenditure distribution among married females, the aggregate spending pattern reveals a pronounced allocation towards Health and Wellness (9%), Bills (6%), Travel (5%), Groceries (5%), and Electronics (4%).
- Upon dissecting spending behavior within specific age brackets:
 - Married females aged 21-24 exhibit a predominant focus on Apparel (10%), Food (6%), Entertainment (5%), and Health and Wellness (5%).
 - The 25-34 age group demonstrates an emphasis on Travel (7%), Bills (7%), Groceries (6%), Health and Wellness (6%), Electronics (5%), and Food (4%).
 - For married females aged 34-45, spending shifts towards a higher allocation for Health and Wellness (12%), Bills (7%), Groceries (5%), Electronics (4%), Food (4%), Travel (4%), and Apparel (4%).
 - In the 45+ age group, married females allocate a significant portion to Health and Wellness (8%), Bills (5%), Groceries (5%), Electronics (4%), and Travel (5%).
- This detailed analysis provides insights into the nuanced spending behaviors of married females across different age groups, facilitating targeted strategies for product development and marketing.

SPENDING HABITS OF MARRIED MALES

- Married males strategically allocate their income across key spending categories, with significant emphasis on Bills (11%), Groceries (9%), Electronics (7%), Health and Wellness (4%), Entertainment (3%), and Food (3%).
- Further delving into spending habits within distinct age groups:
 - Married males aged 21-24 prioritize Entertainment (11%), Electronics (8%), Food (5%), and Apparel (5%).
 - In the 25-34 age bracket, the focus shifts towards Bills (11%), Groceries (9%), Electronics (8%), and Travel (5%).
 - For the 34-45 age group, spending preferences maintain a consistency in Bills (12%), Groceries (9%), Electronics (8%), Travel (5%), and Health and Wellness (5%).
 - In the 45+ age category, married males allocate their budget towards Bills (9%), Groceries (7%), Travel (5%), Electronics (4%), Health and Wellness (4%), and Food (3%).
- This detailed breakdown provides insights into the nuanced spending behaviors of married males across different life stages, offering valuable information for targeted financial planning and product development.

Product Recommendations

WHY AGE-SPECIFIC CARDS SHOULD BE THE APPROACH

1. Targeted Marketing

- Create focused campaigns for distinct age groups.
- Enhance promotional effectiveness by resonating with specific audiences.

2. Customized Features

- Tailor benefits to align with age-appropriate priorities.
- Provide perks that cater to the unique needs of each demographic.

3. Increased Relevance

- Enhance card offerings to address specific financial priorities.
- Ensure relevance by aligning features with cardholders' lifestyles.

4. Customer Retention

- Foster loyalty through personalized benefits.
- Encourage long-term card usage by meeting evolving customer needs.

5. Risk Mitigation

- Manage risk by customizing credit limits and rates.
- Address potential risks associated with different customer segments.

6. Enhanced Customer Experience

- Improve overall satisfaction through personalized features.
- Elevate the customer experience with tailored offerings.

7. Market Differentiation

- Stand out in the market with diversified credit card offerings.
- Attract a broad customer base by showcasing innovation.

8. Strategic Product Development

- Utilize market research for age-wise card design.
- Stay competitive and responsive to evolving consumer trends

PRESENTING OUR EXCLUSIVE CREDIT CARD COLLECTION TAILORED FOR EVERY STAGE OF LIFE

Silver Spark Card (For Ages 21-24)

"Ignite Your Financial Journey with Silver Spark."

Target Audience:

- Age Group: 21-24
- Marital Status: Single/Married
- Minimum income 2.5LPA

Spending Habits:

- Allocated spending on Apparels, Entertainment, Electronics, and Food.
- Prefer UPI Transactions followed by Credit Cards.

• Card Features:

- Lower Interest Rates for smart financial planning.
- Seamless UPI Transactions integration.
- Collaborations with leading e-commerce platforms for exclusive discounts on Apparels and Electronics.
- Strategic partnerships with online food delivery companies for enticing discounts, making it a preferred choice for the young and dynamic individuals.
- Cashback on UPI Transactions: Earn cashback rewards for utilizing UPI transactions, encouraging digital payment habits.
- Exclusive Entertainment Events Access: Attend concerts and exclusive events at discounted rates or with priority bookings.
- Student Loan Integration: Collaborate with financial institutions for seamless integration with student loan repayment, providing financial flexibility.

Gold Horizon Card (For Ages 25-45)

"Elevate Your Finances with Gold Horizon."

Target Audience:

- Age Group: 25-45
- Marital Status: Single/Married
- Minimum Income 4LPA+

•Spending Habits:

- Focus on bills, Electronics, Groceries, Health and Wellness, Travel, Food, and Apparels.

• Card Features:

- Complimentary bi-yearly full health checkup, prioritizing overall well-being.
- Seamless UPI Transactions integration.
- Travel accidental health insurance for security during journeys.
- Airport Lounge access for a touch of luxury.
- Special discounts on fuel expenses.
- Rewarding discounts and points on bill payments, groceries, and health-related purchases.
- Personalized Financial Planning Services: Access to financial planning services for effective budget and investment management.
- Eco-Friendly Spending Rewards: Encouraging eco-friendly practices by rewarding points or discounts for sustainable purchases.
- Priority Customer Service: Dedicated customer service for prompt assistance, ensuring a seamless banking experience.

Card 3: Platinum Legacy Card (For Ages 45+)

"Crafting Your Financial Legacy with Platinum Prestige."

•Target Audience:

- Age Group: 45+
- Marital Status: Married/Single
- Minimum Income 6LPA+

•Spending Habits:

- Focus on bills, Travels, Groceries, Health and Wellness, Food.

• Card Features:

- Complimentary quad-yearly full health checkup, emphasizing health and longevity.
- Seamless UPI Transactions integration.
- Travel accidental health insurance for peace of mind during travels.
- Exclusive discounts on early flight bookings, making travel a seamless pleasure.
- Airport Lounge access for a premium experience.
- Discounts and reward points on bill payments, groceries, and health-related purchases.
- Special privileges on the purchase of medicines and health supplements, catering to the unique needs of our experienced customers.
- Concierge Health Services: Offering personalized health consultations and telemedicine options.
- Exclusive Travel Experiences: Access curated travel experiences and packages for a hassle-free and luxurious travel experience.
- Legacy Planning Services: Introduce services to assist cardholders in legacy planning, including will drafting and estate management.
